-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 March 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

This is the non-final Office Action for the serial number 10/730,972, QUICK RELEASE SUPPORT POST AND ASSOICATED METHOD, filed on 12/9/03.

Drawings

The drawings are objected to under 37 CFR 1.83(a) because they fail to show the expandable engagement member of the second sleeve within the first sleeve to facilitate a positive engagement of the expanded engagement member of the second sleeve with the first sleeve as described in the specification. The expanded engagement member (14) in figure 3 shows it could be slipped out hole of the second sleeve (12) because the arm (44) of the expanded engagement member does not abut against the opening of the first sleeve (13). Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not

accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10, lines 4-5, "such that said first sleeve expandedly engages within a hole defined by the structure" is indefinite because the first sleeve does not have ability of engaging the hole of structure. The expandable engagement member (15) is designed to expandedly engaging the hole of structure.

Claim 10, lines 5-6, "said second sleeve is configured to radially expand within said first sleeve" is indefinite because the second sleeve is not designed to expand within the first sleeve. The expandable engagement member (14) of the second sleeve has the ability of expanding within the first sleeve.

Claim 17, line 8, "positive engagement of the first sleeve within the hole" should be changed to ---positive engagement of the expandable engagement of the first sleeve within the hole--- because the first sleeve does not have the ability to be inserted in the hole of the structure. The expandable engagement has the ability to be expanded within the hole of the structure.

Claim 17, lines 8-9, “radial expansion of the second sleeve within the first sleeve” is indefinite because the second sleeve does not have the ability to expand within the first sleeve, only the expandable engagement member of second sleeve has the ability to expand within the first sleeve.

Claims 11-16 are rejected as depending on rejected claim 10. Claims 18-20 are rejected as depending on rejected claim 17.

Allowable Subject Matter

Claims 1 and 3-9 are allowed.

Claims 10-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
